

Installation of ArcGIS Desktop 10.1 for use without access to Internet

This illustration shows how to install ArcGIS Desktop 10.1 manually with an authorization file so that you can use the software without being connected to Internet. To get an authorization file you need to contact the IT-department via Issuetracker (<https://bs.uib.no>). You will need an new authorization file in the beginning of every year. The software can downloaded from <https://tjinfo.uib.no/program> or you can borrow a dvd from the it-department. Only employees and students at UiB is allowed to use UiB's site license for ArcGIS.

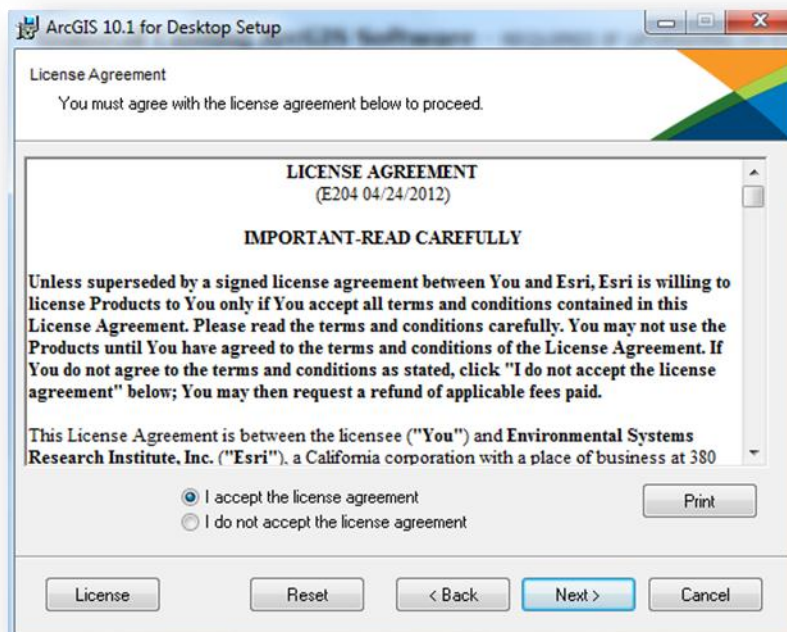

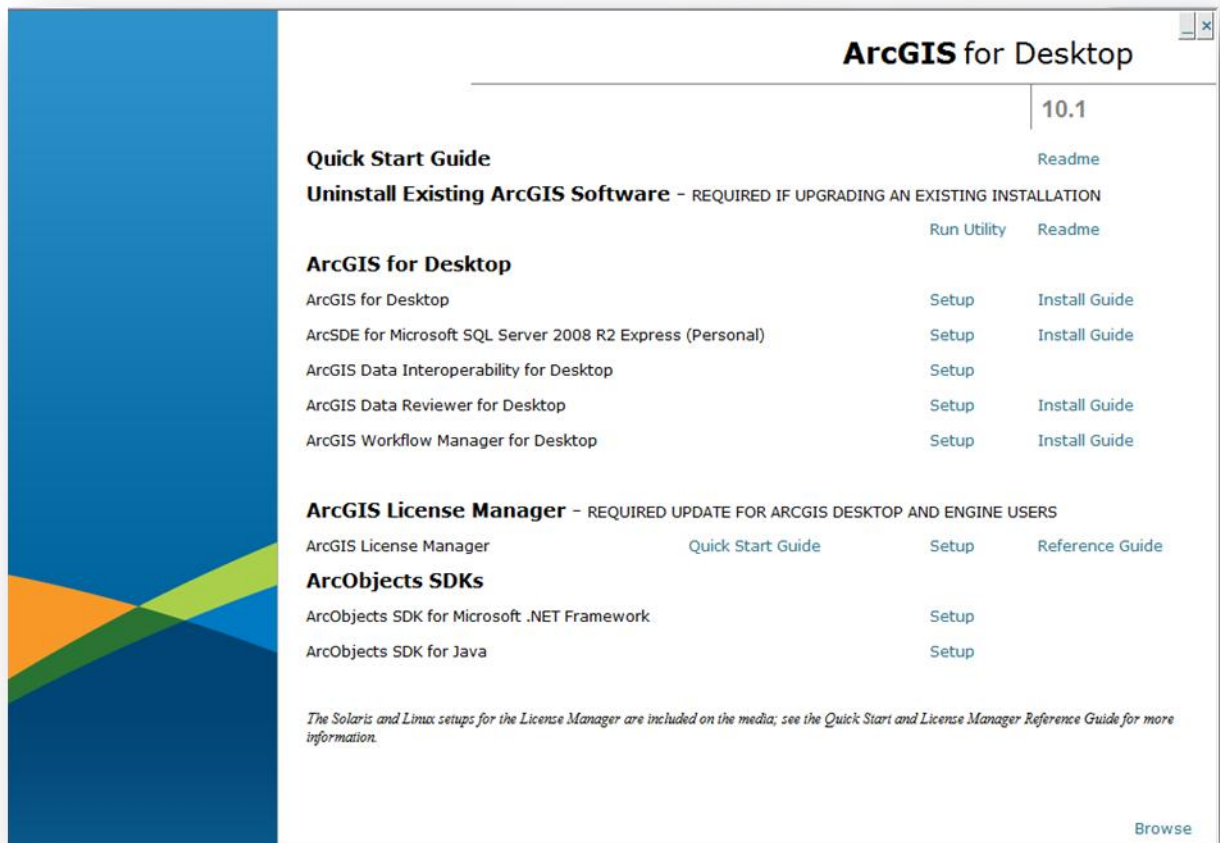

1. You might have to run the installation file as administrator. (right click the file – “Run as administrator”)

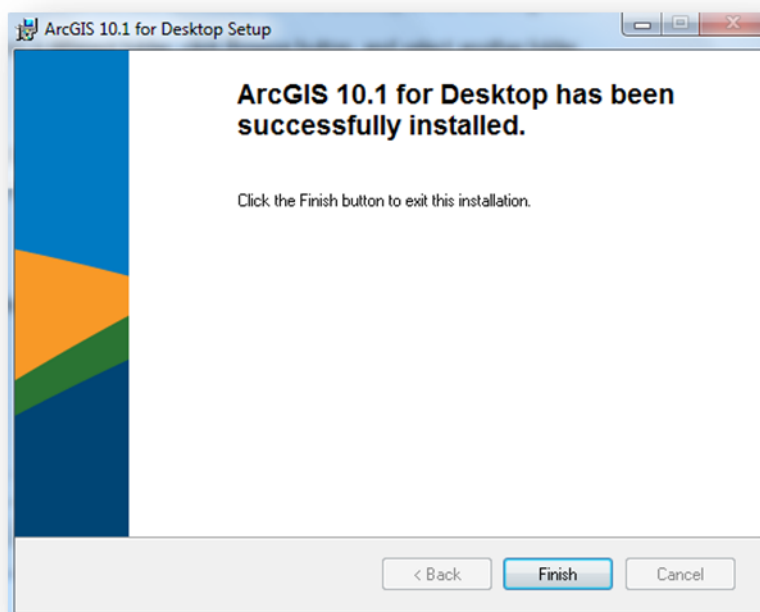

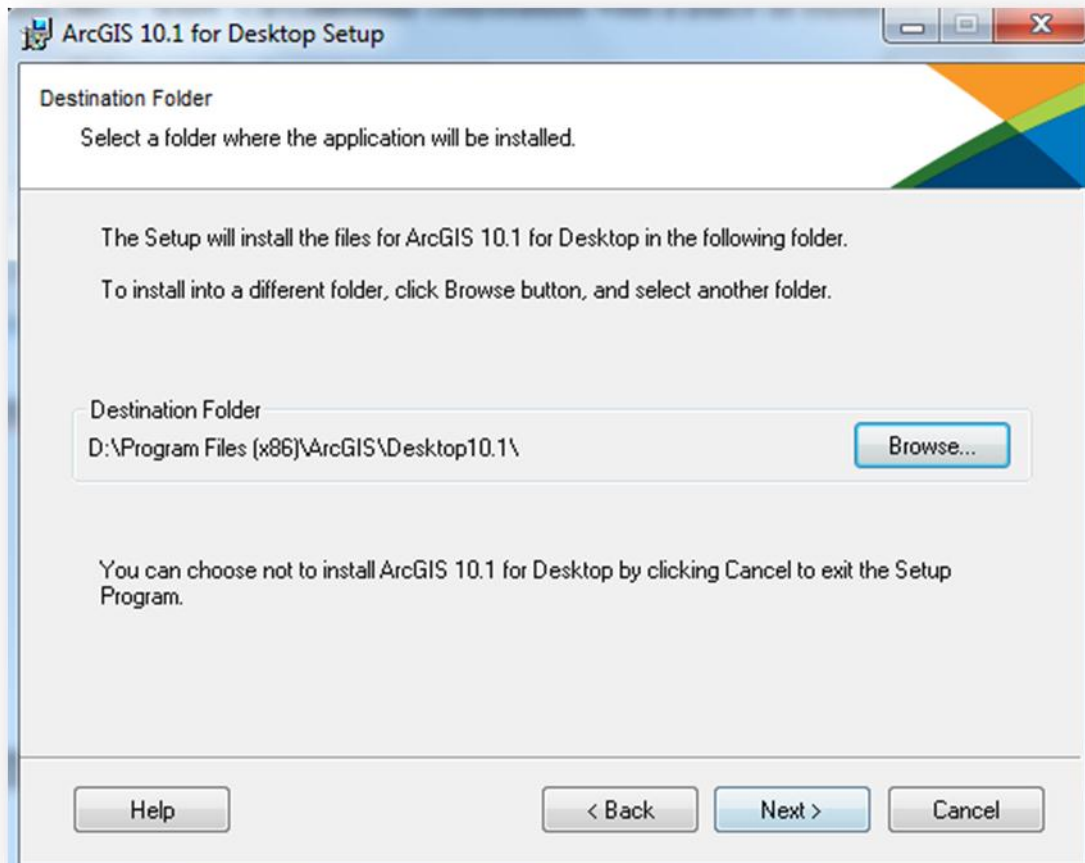

On a client-drifted UoB-computer with an install account you need to choose “Run as different user”

2. Choose "Setup" for "ArcGIS for Desktop"

Especially for client drifted computers it is recommended to install the software on the D-drive ("D:" instead of "C:").

3. Choose Advanced (Arcinfo) Single Use
4. Click "Authorize Now"

1. Select a product

ArcGIS Desktop

- Advanced (ArcInfo) Concurrent Use Advanced (ArcInfo) Single Use
 Standard (ArcEditor) Concurrent Use Standard (ArcEditor) Single Use
